EXPERIENCE

Lincoln Learning Solutions | Rochester, PA *April 2015-Present*

Graphic Designer

- I fulfill requests for graphics that are used in online school curriculums. I have created over 3000 images using Photoshop and Illustrator in the past year. The type of images depend on the needs of the online lessons, such as detailed portraits, graphs or scientific illustrations.

Department of Behavioral & Community Health Sciences | Oakland, PA *April 2016-Present*

Interviewer

- Working part-time at the University of Pittsburgh on behalf of the Allegheny County Health Department. I work as an interviewer, asking people about their health and health behaviors. I use my communication skills to ensure people that the survey is very important in determining the health needs of people in Allegheny County. The information is used for planning health related programs that better serve the people based on their needs.

BrainVessel | Harrisburg, PA *September 2014-August 2015*

Freelance 3D Sculptor

- Used Zbrush to sculpt a 3D model from concept art of an eyeball wrapped in mummy bandages with dripping slime that was printed from a plastic printer and used to make a mold to make copies for a future Kickstarter campaign.
- Created a 3D model of a coin with BrainVessel logo using ZBrush and 3D Studio Max for a successful Kickstarter campaign that raised 60k and the coin was also embedded in the step of a gallery.

Lebanon Daily News | Lebanon, PA *October 2007-January 1st*

Page Designer – Temp

- Used proper naming conventions in prep for the printing process and maintained photo printers.
- Designed page layout for news articles, managed ads and checked proofs for errors.

Fry Communications | Mechanicsburg, PA *May 2005 – July 2007*

Graphic Designer

- Created graphics for print using Photoshop, Illustrator and QuarkXpress for layout design. I edited stock photos and designed articles for magazines with appropriate typography to fit the type of design appropriate for each title.
